

INSTRUCTIONS

CLEANING & MAINTENANCE PROCEDURES FOR

GRIP ROCK[®], BRITE-TRAC[™], & SUPER G[®]

The only non-slip matting that Rocks! These mats will last for years, providing they are cared for properly on a daily basis.

Installation-

Lay out mat on a clean, dry floor. If obstructions exist (i.e. table legs, doorways, etc.) cut the mat to fit my marking mat, then cutting on the back with a sharp razor knife. Do not cover "irregular" floor surfaces—**especially floor drains!**

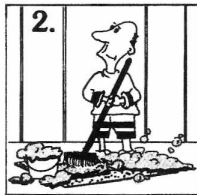

Cleaning-

Mats can be easily rolled up (rough surface on the outside), and moved to a location suitable for cleaning.

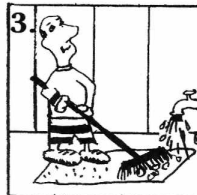

1. Use water and mild detergent (NO BLEACH!)
2. Deck brush both sides of mat
3. Rinse with clean water while brushing
4. Dry thoroughly

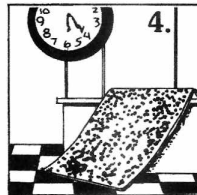

1. Use water & mild detergent

2. Deck brush both sides of mat

3. Brush while rinsing with clean water

4. Allow mat and floor to dry before putting back into place

-or-

You can use one of the following alternate methods:
Steam clean, Medium pressure wash, or Large dishwasher

It is important after cleaning to thoroughly rinse the mat and hang it while both the mat and floor dry. (Do not place on wet floor)
