

# LOCK TILE

Versatile, high-tech, maintenance-free modular flooring. It is formulated to withstand the daily abuse of even industrial/ commercial applications -- including forklift traffic. Install over almost any type of existing floor. Create patterns by mixing the colors.

- Re-surfaces cracked or chipped floors for added safety
- No costly installation fees-- simply lay down and lock together with a mallet
- Modular design allows easy replacement of tiles

**Applications:** Industrial floors, weight room, golf course, locker rooms, ice rinks, garage floors, warehouses, temporary/portable flooring, showrooms, airplane hanger, wherever a durable floor is needed

**Made of:** PVC

**Thickness:** 5/16"

**Weight:** 4.85 lbs per tile

**Size:** 19.5"x19.5" (2.64 sq ft/tile)
