

# POLY DIAGONAL TILE

The perfect solution to entrance traffic. Diagonal rib design provides for maximum debris removal from many directions. Many color choices allows for maximum decor options - mix and match to create patterns, etc.

- Polypropylene fibers; UV stabilized
- Resistant to surface abrasion
- Indoor/outdoor; Recess or surface mount

**Applications:** Entrances, Landings, Foyers, Heavy Duty areas

**Made of:** Nonwoven blend of 17-160 DPF solution dyed ASOTA Polypropylene (UV stabilized) fibers; 37 oz face fiber weight; Total weight of 126 oz/sq yd; Bitumen backing

**Thickness:** 3/8"

**Size:** 19 1/2" x 19 1/2" (2.64 sq ft/tile)

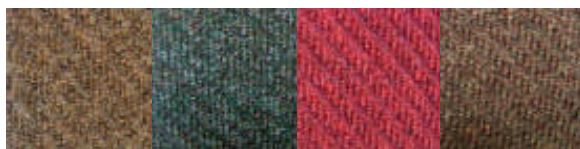

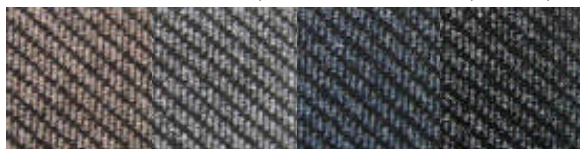

**Design:** Raised diagonal rib

**Installation:** Adhere down. Recommended to quarter-turn the tile during installation.

**Colors:** *(listed in order shown-- request sample for true color representation)*

Top Row: Beige, Gray, Blue, Charcoal

Bottom Row: Zinc, Hunter Green, Red, Autumn

**Properties/Tests:**

- Flammability: Class II (ASTM-E-648)
- Brilliant color fiber retains its color; Permanently anti-static
